PROFESSIONAL SKILLS

- Self-driven and Results-driven engineer. As an engineer I learned to achieve goals on time without the necessity of being supervised.
- Worked in a high pressure environment and delivering directly to clients.
- Autodidact. When I have a problem or an obstacle, I go to the documentation to better understand the root of the problem and the try to solve it from there.
- Lead small technical groups to achieve special task on different areas.
- Worked in English speaking professional environment.

WORK EXPERIENCE

Software Developer

IBM / Kyndryl

05/2021 - Present

Argentina / India

Assigned directly to a development team in India.

Achievements/Tasks

- Developing new software solutions for important clients ensuring scalability and working through all life cycle stages.
- Acting as an interface between International development teams and local (Argentina teams) to bring new solutions and oportunities.

Field Engineer

Weatherford International

10/2011 - 07/2020

Argentina

Weatherford is a global oil & gas company born in Texas, US.

Responsabilities

- Teach new employees as field specialist, guide them through their career path inside the company.
- Test and prepare documentation about new technologies before going to field.
- Prepare M/LWD drilling tools before operations (including programing and testing) and deploy them on the field.

Contact : Sebastian Grispino - +54 9 299 606 1089

CODING PERSONAL PROJECTS

WebApp DEMO

- Fully responsive WebApp UI to CRUD entries on a SQL DB.
- Developed with Spring Boot and Vaadin Java frameworks. Deployed on an AWS EC2 instance.
- Check it on the link of my personal web page (portfolio.migcoronel.com).

Rest API

- REST API to deal with GET, PUT, POST and DELETE orders to alter a SQL DB through JPA.
- Developed with Sgring Boot Java framework. Deployed in AWS. (try calling api.migcoronel.com/api/v1/empleado API).

EDUCATION

Electronic Engineer

Mention: Automation and Process Control. Universidad Rafael Belloso Chacín (URBE)

09/2007 - 07/2011

Maracaibo - Venezuela

Excelled all coding subjects at university:

- Programable Logic Controllers & Lab
- Microcontrollers & Lab
